Very interesting presentation on sundials by Larry McDavid. He gave us some history and background on the sundial. Then gave instructions on how to make one and make it accurate for any location. He challenged us to make a sundial and to bring to a meeting at a future date. The presentation is on a CD. Contact Barb Schmit if you want a copy of it. She also has a list of tangent values for our area, which is needed to make an accurate sundial. 714-328-7973 or barbschmit@comcast.net
